— IDC Executive Brief
Oct. 2006

STRATEGIC ROADMAP VALUE PROPOSITION

Optimum’s E-Business Release 12 Strategic Roadmap is designed to assist our clients in the evaluation of their existing business processes, ERP applications and technology infrastructure.

We will identify cost savings and measurable business benefits to create a Strategic Roadmap for your E-Business Upgrade to Release 12.

DELIVERABLES

Our E-Business R12 Strategic Roadmap provides immediate value by delivering:

- Prioritized Inventory of Strategic R12 Recommendations ranked in sequence by measurable business benefits aligned to corporate goals
- Updated system documentation
- Technology Roadmap
- Organizational Impact Analysis identifying areas affected by the R12 release, such as reorganized operating departments, sub-ledger accounting and sales territories

- High-level Requirements Definition and Fit-Gap Analysis
- High-level Project Plan, Budget and Timeline for executing your R12 upgrade

NEAR-TERM BENEFITS TO YOU

Our E-Business R12 Strategic Roadmap is designed to provide you with an accurate picture of the resources and time required to begin driving business value from R12 through:

- Providing an achievable R12 Strategic Roadmap, aligned to your corporate vision and objectives
- Review of current system configuration and all documentation related to customizations, interfaces, reports and workflow
- Assessment of your specific enterprise Infrastructure Readiness
- Streamlining business processes in line with best practices
- Providing a high-impact business case that ensures executive support for your proposed R12 upgrade and delivers business value to your user community
