- Supply Chain Planning

#### WE KNOW ORACLE E-BUSINESS

Optimum's Oracle Center of Excellence consultants have been working with Oracle applications since the introduction of release 9.3. We have seen the product evolve and mature from an initial release of core functionality to today's robust ERP solution. As a result, we know how to maximize the benefits of Oracle and deliver exceptional added value to the enterprise.

#### WE KNOW THE ORACLE E-BUSINESS SUITE

We have significant experience with the Oracle E-Business Suite including the newest release R12. The introduction of this new release uniquely positions Optimum to deliver value through Fusion technology and expanded web services capabilities.

#### ORACLE SOLUTIONS TAILORED TO YOUR BUSINESS

Optimum has developed a deep understanding of the key enterprise business processes through years of work with clients across a diverse set of industries. To each project

we bring a combination of Oracle product expertise and a thorough understanding of how to best implement Oracle solutions to meet your business objectives.

#### EXTENDING ORACLE TO YOUR EMPLOYEES AND TRADING PARTNERS

Optimum can demonstrate how to lower transaction costs and maximize an Oracle investment by extending into self-service applications and portals for your trading partners and employees through iProcurement, iSupplier, iStore, iReceivables, iPayment and Internet Expenses.

#### BUSINESS PROCESS EXPERTISE

Underlying our product knowledge is a wealth of business process and best practice expertise derived from years of operational and financial experience which enables us to not only implement Oracle systems but truly provide Oracle business solutions.
